VOLUME 54 • SUBJECT INDEX

abdominal surgery, Surgery and respiratory muscles: *letter,* **1140**
Surgery and the respiratory muscles: *review,* **458**
acronyms, Acronyms: *letter,* **751**
ACTH test, Adrenal function in asthmatic children: *letter,* **92**
acute respiratory distress syndrome, Acute respiratory distress syndrome and nosocomial pneumonia: *review,* **1036**
adenosine 5'-monophosphate, Histamine release upon adenosine 5'-monophosphate (AMP) nasal provocation in allergic subjects, **230**
Nasal provocation with AMP: *letter,* **1050**
adrenal function, Adrenal function in asthmatic children: *letter,* **92**
adrenal suppression, 24 hour and fractionated profiles of adrenocortical activity in asthmatic patients receiving inhaled and intranasal corticosteroids, **20**
Evaluation of the buccal component of systemic absorption with inhaled fluticasone propionate, **614**
adult asthma, Birth weight, body mass index and asthma in young adults, **396**
adult respiratory distress syndrome, Treatment of adult respiratory distress syndrome: plea for rescue therapy of the alveolar epithelium: *review,* **150**
age, Rising incidence of SCLC in young women: *letter,* **656**
Variation of bronchoalveolar lymphocyte phenotypes with age in the physiologically normal human lung, **697**
AIDS, Tuberculosis in AIDS: past or new problems?: *editorial,* **567**
Identification of HIV patients with active pulmonary tuberculosis using urine based polymerase chain reaction assay, **145**
air pollution, Association of air pollution with daily GP consultations for asthma and other lower respiratory conditions in London, **597**
Domestic biomass fuel combustion and chronic bronchitis in two rural Bolivian villages, **1004**
Particulate air pollution and the blood, **1027**
airflow obstruction, Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
airway function, Gender differences in airway behaviour over the human life span: *review,* **1119**
airway hyperresponsiveness, Airway hyperresponsiveness in asthma: *letter,* **656**
Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effect of oral l-arginine on airway hyperresponsiveness to histamine in asthma, **1033**
airway inflammation, Effect of differing doses of inhaled budesonide on markers of airway inflammation in patients with mild asthma, **108**
Exhaled nitric oxide in COPD: glancing through a smoke screen: *editorial,* **565**
airway obstruction, Relation of the perception of airway obstruction to the severity of asthma, **15**
airway occlusion pressure, Changes in occlusion pressure ($P_{0.1}$) and breathing pattern during pressure support ventilation, **119**
airway responsiveness, Gender differences in airway behaviour over the human life span: *review,* **1119**
airway vascularity, Vascularity in asthmatic airways: relation to inhaled steroid dose, **289**
Vascularity in asthmatic airways: relation to inhaled steroid dose: *editorial,* **283**
allergen bronchial challenge, Effect of a single dose of salmeterol on the increase in airway eosinophils induced by allergen challenge in asthmatic subjects, **622**
allergen exposure, Mite, cat, and cockroach exposure, allergen sensitisation, and asthma in children: a case-control study of three schools, **675**
allergic bronchopulmonary aspergillosis, Specific IgG subclass antibody pattern to *Aspergillus fumigatus* in patients with cystic fibrosis with allergic bronchopulmonary aspergillosis (ABPA), **44**
allergic rhinitis, Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**
amphetamine, Athletes and doping: effects of drugs on the respiratory system: *review,* **1041**
amyloidosis, Amyloidosis and the respiratory tract: *review,* **444**
anabolic steroids, Athletes and doping: effects of drugs on the respiratory system: *review,* **1041**
anaerobic threshold, Short term effects of aerobic training in the clinical management of moderate to severe asthma in children, **202**
anaesthesia, Surgery and respiratory muscles: *letter,* **1140**
anaphylaxis, Acute anaphylaxis following midline catheterisation in a patient with cystic fibrosis, **747**
aneurysm, Idiopathic azygos vein aneurysm: a rare cause of mediastinal mass, **653**
Annual report 1997-1998, Rising impact, fast review: Annual Report October 1997 to September 1998, **5**
antibody avidity, Avidity of anti-*P aeruginosa* antibodies during chronic infection in patients with cystic fibrosis, **141**
anti-inflammatory activity, The anti-inflammatory effects of macrolides, **S58 (Suppl 2)**
antioxidants, Dietary factors and pulmonary function: a cross sectional study in middle aged men from three European countries, **1021**
apoptosis, Fas and Fas ligand expression in cystic fibrosis airway epithelium, **1093**
asbestos induced lung injury, The molecular basis of asbestos induced lung injury: *review,* **638**
Aspergillus, Successful treatment of post-influenza pseudomembranous necrotising bronchial aspergillosis with liposomal amphotericin, inhaled amphotericin B, gamma interferon and GM-CSF, **1047**
Aspergillus fumigatus, *Aspergillus fumigatus* in sputum during acute EBV infection: *letter,* **658**
Laryngeal aspergillosis following high dose inhaled fluticasone therapy for asthma, **860**
re-invention of the wheel: *letter,* **1142**
aspirin sensitive asthma, A six week double blind, placebo controlled, crossover study of the effect of misoprostol in the treatment of aspirin sensitive asthma, **900**
asthma, Screening older patients for obstructive airways disease: *editorial,* **472**
24 hour and fractionated profiles of adrenocortical activity in asthmatic patients receiving inhaled and intranasal corticosteroids, **20**
A confidential enquiry into asthma deaths in Wales, **985**
Addition of salmeterol versus doubling the dose of fluticasone propionate in patients with mild to moderate asthma, **207**
Adrenal function in asthmatic children: *letter,* **92**
Airway hyperresponsiveness in asthma: *letter,* **656**
Application of functional genomics to study of inflammatory airways disease: *review,* **79**
Are we too ready to diagnose asthma in children?: *review,* **625**
Association of air pollution with daily GP consultations for asthma and other lower respiratory conditions in London, **597**
Asymptomatic bronchial hyperresponsiveness to exercise in childhood and the development of asthma related symptoms in young adulthood: the Odense Schoolchild Study, **587**
Beta agonist dose reduction in asthma: *letter,* **861**
Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Cytokines in asthma: *review,* **825**
Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
Do exogenous oestrogens and progesterone influence asthma?: *review,* **265**
Early use of inhaled nedocromil sodium in children following an acute episode of asthma, **308**
Effect of a single dose of salmeterol on the increase in airway eosinophils induced by allergen challenge in asthmatic subjects, **622**
Effect of differing doses of inhaled budesonide on markers of airway inflammation in patients with mild asthma, **108**
Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effect of intravenous corticosteroid on ex vivo leukotriene generation by blood leucocytes of normal and asthmatic patients, **1075**
Effect of methacholine challenge on cellular composition of sputum induction, **37**
Effect of oral L-arginine on airway hyperresponsiveness to histamine in asthma, **1033**
Effects of inhaled fluticasone and oral prednisolone on clinical and inflammatory parameters in patients with asthma, **894**
Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma, **196**
Evaluation of the buccal component of systemic absorption with inhaled fluticasone propionate, **614**
Exercise training as an adjunct to asthma management?: *editorial,* **190**
Extended tumour necrosis factor/HLA-DR haplotypes and asthma in an Australian population sample, **757**

Gender differences in airway behaviour over the human life span: *review*, **1119**
Genetics and pulmonary medicine: asthma: *review*, **65**
Geographical and socioeconomic variation in the prevalence of asthma symptoms in English and Scottish children, **476**
How much asthma is really attributable to atopy?: *review*, **268**
Immunohistochemical localisation of the matrix metalloproteinases MMP-3 and MMP-9 within the airways in asthma, **590**
Immunomodulation by interference with co-stimulatory molecules: therapeutic perspectives in asthma: *review*, **554**

budesonide, One year prospective open study of the effect of high dose inhaled steroids, fluticasone propionate, and budesonide on bone markers and bone mineral density, **223**
Burkholderia cepacia, *Burkholderia cepacia* bronchiectasis: *letter,* **92**

caffeine, Athletes and doping: effects of drugs on the respiratory system: *review,* **1041**
calcium channel blockers, Pulmonary hypertension: its assessment and treatment, **S28 (Suppl 2)**
carbon monoxide, Increased carbon monoxide in exhaled air of patients with cystic fibrosis, **917**
cardiothoracic surgery, Surgery and the respiratory muscles: *review,* **458**
cardiovascular disease, Particulate air pollution and the blood, **1027**
Risk factors for death from asthma, chronic obstructive pulmonary disease, and cardiovascular disease after a hospital admission for asthma, **301**
cathepsins, The plasmin cascade and matrix metalloproteinases in non-small cell lung cancer: *review,* **169**
catheterisation, Paradoxical embolism in a boy with cystic fibrosis and a stroke, **1139**
ceramics industry, Silica dust and lung cancer in the German stone, quarrying and ceramics industries: results of a case-control study, **347**
CFC-free, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
CFTR gene, The pathogenic consequences of a single mutated CFTR gene, **S19 (Suppl 2)**
childhood, Relationship between early life respiratory illness, family size over time, and the development of asthma and hay fever: a seven year follow up study, **664**
childhood asthma, Case-control study of hospital admission with asthma in children aged 5–14 years: relation with road traffic in north west London, **1070**
Early use of inhaled nedocromil sodium in children following an acute episode of asthma, **308**
Immune mechanisms of childhood asthma: *review,* **938**
childhood empyema, Childhood empyema: *letter,* **563**
Childhood empyema: *letter,* **92**
children, Adrenal function in asthmatic children: *letter,* **92**
Are we too ready to diagnose asthma in children?: *review,* **625**
Asymptomatic bronchial hyperresponsiveness to exercise in childhood and the development of asthma related symptoms in young adulthood: the Odense Schoolchild Study, **587**
Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma, **196**
Exercise training as an adjunct to asthma management?: *editorial,* **190**
Geographical and socioeconomic variation in the prevalence of asthma symptoms in English and Scottish children, **476**
Mite, cat, and cockroach exposure, allergen sensitisation, and asthma in children: a case-control study of three schools, **675**
Peak flow variation in childhood asthma: correlation with symptoms, airways obstruction, and hyperresponsiveness during long term treatment with inhaled corticosteroids, **103**
Prevalence of atopy, asthma symptoms and diagnosis, and the management of asthma: comparison of an affluent and a non-affluent country, **606**
Short term effects of aerobic training in the clinical management of moderate to severe asthma in children, **202**
Summary of effects of parental smoking on the respiratory health of children and implications for research, **357**
The burden of asthma: weighting the community risk against individual risk: *editorial,* **471**
Tracheobronchial malacia and stenosis in children in intensive care: bronchograms help to predict oucome, **511**
chlorofluorocarbons (CFCs), Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
chronic bronchitis, Domestic biomass fuel combustion and chronic bronchitis in two rural Bolivian villages, **1004**
chronic cough, Chronic cough: *letter,* **563**
Chronic cough: *letter,* **563**
Investigation and management of persistent dry cough: *letter,* **469**
chronic obstructive pulmonary disease, Screening older patients for obstructive airways disease: *editorial,* **472**
Acute effect of pretreatment with single conventional dose of salmeterol on dose-response curve to oxitropium bromide in chronic obstructive pulmonary disease, **1083**
An empirical comparison of the St George's Respiratory Questionnaire (SGRQ) and the Chronic Respiratory Disease Questionnaire (CRQ) in a clinical trial setting, **995**
Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Coal mining and COPD: *letter,* **187**
COPD guidelines: *letter,* **375**
COPD guidelines: *letter,* **655**
Cough threshold in patients with chronic obstructive pulmonary disease, **62**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
Domiciliary NIPPV in COPD: *letter,* **91**
EUROSCOP, ISOLDE and the Copenhagen City Lung Study: *editorial,* **287**
Evaluation of pulsed dose oxygen delivery during exercise in patients with severe chronic obstructive pulmonary disease, **242**
Exhaled nitric oxide in COPD: glancing through a smoke screen: *editorial,* **565**
FEV_1 and PEF in COPD management: *letter,* **468**
Field tests in pulmonary disease: *editorial,* **191**
Gender differences in airway behaviour over the human life span: *review,* **1119**
Genetic epidemiology of pulmonary function: *review,* **818**
Glutathione S-transferase P1 (GSTP1) polymorphism in patients with chronic obstructive pulmonary disease, **693**
Home treatment of COPD exacerbations, **S8 (Suppl 2)**
Increased exhaled nitric oxide in patients with stable chronic obstructive pulmonary disease, **572**
Inhaled corticosteroids in COPD: *letter,* **186**
Inhaled corticosteroids in COPD: *letter,* **655**
Long acting β_2 agonists and theophylline in stable chronic obstructive pulmonary disease: *review,* **730**
Long term effects of inhaled corticosteroids in chronic obstructive pulmonary disease: a meta-analysis, **7**
Lung transplantation for chronic obstructive pulmonary disease: an exercise in quality rather than quantity?, **S24 (Suppl 2)**
Lung volume reduction surgery (LVRS) for chronic obstructive pulmonary disease (COPD) with underlying severe emphysema, **779**
Markers of nitric oxide metabolism in sputum and exhaled air are not increased in chronic obstructive pulmonary disease, **576**
Molecular genetics of chronic obstructive pulmonary disease: *review,* **245**
Prevalence of depression in patients with chronic obstructive pulmonary disease: a systematic review, **688**
Pulsed dose oxygen delivery system: *letter,* **750**
Re-assessing the evidence about inhaled corticosteroids in chronic obstructive pulmonary disease: *editorial,* **3**
Risk factors for death from asthma, chronic obstructive pulmonary disease, and cardiovascular disease after a hospital admission for asthma, **301**
Screening older patients for obstructive airways disease in a semi-rural practice, **501**
Socioeconomic status and chronic obstructive pulmonary disease: *review,* **737**
The endurance shuttle walk: a new field test for the assessment of endurance capacity in chronic obstructive pulmonary disease, **213**
The prediction of benefit from pulmonary rehabilitation: setting, training intensity and the effect of selection by disability, **S3 (Suppl 2)**
Usefulness of the Medical Research Council (MRC) dyspnoea scale as a measure of disability in patients with chronic obstructive pulmonary disease, **581**
Chronic Respiratory Disease Questionnaire, An empirical comparison of the St George's Respiratory Questionnaire (SGRQ) and the Chronic Respiratory Disease Questionnaire (CRQ) in a clinical trial setting, **995**
chronic thromboembolic pulmonary hypertension, Pulmonary thromboendarterectomy for chronic thromboembolic pulmonary hypertension: *editorial,* **755**
Churg-Strauss syndrome, Inflammatory cells and cellular activation in the lower respiratory tract in Churg-Strauss syndrome, **771**
Leukotriene antagonists and Churg-Strauss syndrome: the smoking gun: *editorial,* **865**
chymase, Mast cell chymase in pulmonary hypertension, **88**
clinical applications, Nasal nitric oxide in man: *review,* **947**
clinical diagnosis, Clinical diagnosis of ventilator associated pneumonia revisited: comparative validation using immediate post-mortem lung biopsies, **867**
coal mining, Coal mining and COPD: *letter,* **187**
Industrial injuries benefits for coal miners with obstructive lung disease: *letter,* **282**
coin lesion, Transthoracic needle aspiration biopsy for the diagnosis of localised pulmonary lesions: a meta-analysis, **884**
collagenase, Collagen degrading activity associated with *Mycobacterium* species, **439**

combination therapy, Acute effect of pretreatment with single conventional dose of salmeterol on dose-response curve to oxitropium bromide in chronic obstructive pulmonary disease, **1083**
community acquired pneumonia, Circulating interleukin 6 and interleukin 10 in community acquired pneumonia, **51**
computed tomography, Comparison of low attenuation areas on computed tomographic scans between inner and outer segments of the lung in patients with chronic obstructive pulmonary disease: incidence and contribution to lung function, **384**
Imaging in the evaluation of emphysema: *editorial,* **379**
computerised medical records, Use of the General Practice Research Database (GPRD) for respiratory epidemiology: a comparison with the 4th Morbidity Survey in General Practice (MSGP4), **413**
congenital cystic adenomatoid malformation, Management of antenatally diagnosed pulmonary sequestration associated with congenital cystic adenomatoid malformation, **701**
congenital diaphragmatic hernia, Enhanced expression of vascular endothelial growth factor in lungs of newborn infants with congenital diaphragmatic hernia and pulmonary hypertension, **427**
connective tissue diseases, Treatment of pulmonary hypertension secondary to connective tissue diseases: *review,* **273**
contraceptives, Do exogenous oestrogens and progesterone influence asthma?: *review,* **265**
cooking fuel, Domestic biomass fuel combustion and chronic bronchitis in two rural Bolivian villages, **1004**
cordotomy, Percutaneous cervical cordotomy for the control of pain in patients with pleural mesothelioma, **238**
corticosteroid naive asthma, Effect of inhaled corticosteroids on bronchial responsiveness in patients with "corticosteroid naive" mild asthma: a meta-analysis, **316**
corticosteroids, 24 hour and fractionated profiles of adrenocortical activity in asthmatic patients receiving inhaled and intranasal corticosteroids, **20**
Bone loss and glucocorticoid therapy in patients with respiratory disease, **S52 (Suppl 2)**
Corticosteroids and ibuprofen in cystic fibrosis: *letter,* **657**
Effect of intravenous corticosteroid on ex vivo leukotriene generation by blood leucocytes of normal and asthmatic patients, **1075**
Effects of inhaled fluticasone and oral prednisolone on clinical and inflammatory parameters in patients with asthma, **894**
Nebulised corticosteroids in the treatment of patients with asthma: *editorial,* **661**
Pseudo-steroid resistant asthma, **352**
Pseudo-steroid resistant asthma: *letter,* **956**
co-stimulatory molecules, Immunomodulation by interference with co-stimulatory molecules: therapeutic perspectives in asthma: *review,* **554**
cough, Cough threshold in patients with chronic obstructive pulmonary disease, **62**
Increased neutrophils and cytokines, TNF-α and IL-8, in induced sputum of non-asthmatic patients with chronic dry cough, **234**
Respiratory symptoms and home environment in children: a national survey, **27**
critical care medicine, Pulmonary and critical care medicine: a peculiarly American hybrid?: *editorial,* **286**
cystic fibrosis, The CF gene: 10 years on: *editorial,* **1052**
A novel non-invasive technique for measuring the residual lung volume by nitrogen washout with rapid thoracoabdominal compression in infants, **874**
Acute anaphylaxis following midline catheterisation in a patient with cystic fibrosis, **747**
Avidity of anti-*P aeruginosa* antibodies during chronic infection in patients with cystic fibrosis, **141**
Bone mineral density in adults with cystic fibrosis: *editorial,* **957**
Can manifesting heterozygotes have cystic fibrosis?: *editorial,* **194**
Clinical presentation of exclusive cystic fibrosis lung disease, **278**
Comparison of the in vitro and in vivo response to inhaled DNase in patients with cystic fibrosis: *letter,* **91**
Corticosteroids and ibuprofen in cystic fibrosis: *letter,* **657**
Cystic fibrosis and diabetes: *letter,* **751**
Diagnosis of cystic fibrosis related diabetes: a selective approach in performing the oral glucose tolerance test based on a combination of clinical and biochemical criteria, **40**
Fas and Fas ligand expression in cystic fibrosis airway epithelium, **1093**
Increased carbon monoxide in exhaled air of patients with cystic fibrosis, **917**
Low bone mineral density in adults with cystic fibrosis, **961**
Oxidative stress during acute respiratory exacerbations in cystic fibrosis, **518**
Paradoxical embolism in a boy with cystic fibrosis and a stroke, **1139**
rhDNase in cystic fibrosis: *letter,* **752**
Specific IgG subclass antibody pattern to *Aspergillus fumigatus* in patients with cystic fibrosis with allergic bronchopulmonary aspergillosis (ABPA), **44**
Survival estimates for adults with cystic fibrosis born in the United Kingdom between 1947 and 1967, **420**
Systematic review of antistaphylococcal antibiotic therapy in cystic fibrosis, **380**
Targeting DNase in cystic fibrosis: *letter,* **470**
The pathogenic consequences of a single mutated CFTR gene, **S19 (Suppl 2)**
Treatment of *Staphylococcus aureus* in cystic fibrosis: *editorial,* **377**
Validity of a modified shuttle test in adult cystic fibrosis, **437**
cytokines, Cytokines in asthma: *review,* **825**

d-dimer, Pulmonary embolism: *letter,* **562**
d-dimer testing, Rapid d-dimer testing as an adjunct to clinical findings in excluding pulmonary embolism, **33**
death, Risk factors for death from asthma, chronic obstructive pulmonary disease, and cardiovascular disease after a hospital admission for asthma, **301**
depression, Prevalence of depression in patients with chronic obstructive pulmonary disease: a systematic review, **688**
diabetes mellitus, Cystic fibrosis and diabetes: *letter,* **751**
Diagnosis of cystic fibrosis related diabetes: a selective approach in performing the oral glucose tolerance test based on a combination of clinical and biochemical criteria, **40**
diagnosis, A quagmire for clinicians: when technological advances exceed clinical knowledge: *editorial,* **474**
Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
Nasal pressure recording in the diagnosis of sleep apnoea hypopnoea syndrome, **506**
Nocturnal oximetry for the diagnosis of the sleep apnoea hypopnoea syndrome: a method to reduce the number of polysomnographies?, **968**
Sleep on the cheap: the role of overnight oximetry in the diagnosis of sleep apnoea hypopnoea syndrome: *editorial,* **958**
The diagnosis, assessment and treatment of diffuse parenchymal lung disease in adults, **S1 (Suppl 1)**
Transthoracic needle aspiration biopsy for the diagnosis of localised pulmonary lesions: a meta-analysis, **884**
Ventilator associated pneumonia: asking the right question: *editorial,* **863**
diaphragm compound muscle action potential (CMAP), Effect of brachial plexus co-activation on phrenic nerve conduction time, **765**
diaphragm paralysis, Effect of brachial plexus co-activation on phrenic nerve conduction time, **765**
diet, Dietary factors and pulmonary function: a cross sectional study in middle aged men from three European countries, **1021**
dietary deficiency, Dietary antioxidants and magnesium in type 1 brittle asthma: a case control study, **115**
Dieulafoy's disease, Fatal haemorrhage from Dieulafoy's disease of the bronchus, **184**
diffuse parenchymal lung disease, The diagnosis, assessment and treatment of diffuse parenchymal lung disease in adults, **S1 (Suppl 1)**
directly observed therapy, Directly observed therapy (DOT) for tuberculosis: why, when, how and if?, **42**
disease monitoring, Exhaled nitric oxide in COPD: glancing through a smoke screen: *editorial,* **565**
DNA, Simian virus 40 and human pleural mesothelioma, **60**
Simian virus 40 and human pleural mesothelioma: *letter,* **750**
DNase, Comparison of the in vitro and in vivo response to inhaled DNase in patients with cystic fibrosis: *letter,* **91**
Targeting DNase in cystic fibrosis: *letter,* **470**
dose reduction, Randomised placebo controlled trial of β agonist dose reduction in asthma, **98**
Duchenne muscular dystrophy, Duchenne muscular dystrophy: *letter,* **564**
duplicate publication, Duplicate publication, redundant publication, and disclosure of closely related publications: *editorial,* **378**
dyspnoea, Usefulness of the Medical Research Council (MRC) dyspnoea scale as a measure of disability in patients with chronic obstructive pulmonary disease, **581**

education, Providing better asthma care: what is there left to do?: *review,* **813**
elastic pressure–volume curves, Elastic pressure–volume curves: what information do they convey?: *review,* **82**
elderly, Remission of asthma in the middle aged and elderly: report from the Obstructive Lung Disease in Northern Sweden study, **611**
emphysema, Comparison of low attenuation areas on computed tomographic scans between inner and outer segments of the lung in patients with chronic obstructive pulmonary disease: incidence and contribution to lung function, **384**
Imaging in the evaluation of emphysema: *editorial,* **379**
Lung volume reduction surgery (LVRS) for chronic obstructive pulmonary disease (COPD) with underlying severe emphysema, **779**
Lung volume reduction surgery, **S14 (Suppl 2)**
endothelium, Role of NO in recovery from neonatal hypoxic pulmonary hypertension, **796**

endurance shuttle walk test, Field tests in pulmonary disease: *editorial,* **191**
The endurance shuttle walk: a new field test for the assessment of endurance capacity in chronic obstructive pulmonary disease, **213**
environmental asthma, Long term outcome of soybean epidemic asthma after an allergen reduction intervention, **670**
eosinophic cationic protein, Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**
eosinophils, Effect of a single dose of salmeterol on the increase in airway eosinophils induced by allergen challenge in asthmatic subjects, **622**
Inflammatory cells and cellular activation in the lower respiratory tract in Churg-Strauss syndrome, **771**
epidemic asthma, Long term outcome of soybean epidemic asthma after an allergen reduction intervention, **670**
epidemiology, Genetic epidemiology of pulmonary function: *review,* **818**
Remission of asthma in the middle aged and elderly: report from the Obstructive Lung Disease in Northern Sweden study, **611**
Use of the General Practice Research Database (GPRD) for respiratory epidemiology: a comparison with the 4th Morbidity Survey in General Practice (MSGP4), **413**
Wegener's granulomatosis: *review,* **629**
epithelioid haemangioendothelioma, Epithelioid haemangioendothelioma, **560**
erythrocytes, Particulate air pollution and the blood, **1027**
erythromycin, The anti-inflammatory effects of macrolides, **S58 (Suppl 2)**
ethics, Ethical and clinical issues in the use of home non-invasive mechanical ventilation for the palliation of breathlessness in motor neurone disease: *review,* **367**
ethnicity, Temporal trends and ethnic variations in asthma mortality in Singapore, 1976–1995, **990**
***eThorax*, *Thorax* with extra "*e*":** *editorial,* **189**
exercise, Evaluation of pulsed dose oxygen delivery during exercise in patients with severe chronic obstructive pulmonary disease, **242**
Pulsed dose oxygen delivery system: *letter,* **750**
exercise testing, Asymptomatic bronchial hyperresponsiveness to exercise in childhood and the development of asthma related symptoms in young adulthood: the Odense Schoolchild Study, **587**
Effect of thoracotomy and lung resection on exercise capacity in patients with lung cancer, **334**
exercise training, Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma, **196**
Exercise training as an adjunct to asthma management?: *editorial,* **190**
Short term effects of aerobic training in the clinical management of moderate to severe asthma in children, **202**
exhaled nitric oxide, Effect of inhaled ozone on exhaled nitric oxide, pulmonary function, and induced sputum in normal and asthmatic subjects, **1061**
Exhaled nitric oxide in COPD: glancing through a smoke screen: *editorial,* **565**
Increased exhaled nitric oxide in patients with stable chronic obstructive pulmonary disease, **572**
Markers of nitric oxide metabolism in sputum and exhaled air are not increased in chronic obstructive pulmonary disease, **576**
extralobar pulmonary sequestration, Management of antenatally diagnosed pulmonary sequestration associated with congenital cystic adenomatoid malformation, **701**
extramedullary haematopoiesis, Intrathoracic extramedullary haematopoiesis complicated by massive haemothorax in alpha-thalassaemia, **466**

family size, Relationship between early life respiratory illness, family size over time, and the development of asthma and hay fever: a seven year follow up study, **664**
Fas ligand, Fas and Fas ligand expression in cystic fibrosis airway epithelium, **1093**
Fas/APO1, Fas and Fas ligand expression in cystic fibrosis airway epithelium, **1093**
fatal haemorrhage, Fatal haemorrhage from Dieulafoy's disease of the bronchus, **184**
FcεRI-β gene, Mutational analysis of the high affinity immunoglobulin E receptor β subunit gene in asthma, **409**
fetal growth, Relationship between fetal growth and the development of asthma and atopy in childhood, **905**
field exercise testing, Field tests in pulmonary disease: *editorial,* **191**
The endurance shuttle walk: a new field test for the assessment of endurance capacity in chronic obstructive pulmonary disease, **213**
fluorescence bronchoscopy, Fluorescence bronchoscopy for the early detection of lung cancer: *review,* **180**
fluticasone propionate, Addition of salmeterol versus doubling the dose of fluticasone propionate in patients with mild to moderate asthma, **207**
Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effects of inhaled fluticasone and oral prednisolone on clinical and inflammatory parameters in patients with asthma, **894**
Evaluation of the buccal component of systemic absorption with inhaled fluticasone propionate, **614**
Laryngeal aspergillosis following high dose inhaled fluticasone therapy for asthma, **860**
One year prospective open study of the effect of high dose inhaled steroids, fluticasone propionate, and budesonide on bone markers and bone mineral density, **223**
forced oscillation technique, Muscarinic blockade of methacholine induced airway and parenchymal lung responses in anaesthetised rats, **531**
fruit, Dietary factors and pulmonary function: a cross sectional study in middle aged men from three European countries, **1021**

gas cooking, Gas cooking and respiratory disease: *editorial,* **1054**
Respiratory symptoms in older people and use of domestic gas appliances, **1104**
gas dilution, The open circuit nitrogen washout technique for measuring the lung volume in infants: methodological aspects, **790**
gastro-oesophageal reflux, Pseudo-steroid resistant asthma, **352**
general practice, Screening older patients for obstructive airways disease: *editorial,* **472**
Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
Screening older patients for obstructive airways disease in a semi-rural practice, **501**
Use of the General Practice Research Database (GPRD) for respiratory epidemiology: a comparison with the 4th Morbidity Survey in General Practice (MSGP4), **413**

human mesothelioma, Simian virus 40 and human pleural mesothelioma, **60**
Simian virus 40 and human pleural mesothelioma: *letter,* **750**
humidity, Effect of high versus low ambient humidity on the severity of obstructive sleep apnoea, **711**
hydrofluorocarbons, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
hyperventilation, Pseudo-steroid resistant asthma, **352**

ibuprofen, Corticosteroids and ibuprofen in cystic fibrosis: *letter,* **657**
idiopathic pulmonary fibrosis, Granulocyte-colony stimulating factor levels in bronchoalveolar lavage fluid from patients with idiopathic pulmonary fibrosis, **1015**
Lung and chest wall mechanics in ventilated patients with end stage idiopathic pulmonary fibrosis, **390**
IgG subclass antibodies, Specific IgG subclass antibody pattern to *Aspergillus fumigatus* in patients with cystic fibrosis with allergic bronchopulmonary aspergillosis (ABPA), **44**
image analysis, Objective quantitative analysis of eosinophils and bronchial epithelial cells in induced sputum by laser scanning cytometry, **124**
immune mechanisms, Immune mechanisms of childhood asthma: *review,* **938**
immunocompromised children, Intrapulmonary protein leakage in immunocompromised children and adults with pneumonia, **432**
immunomodulation, Immunomodulation by interference with co-stimulatory molecules: therapeutic perspectives in asthma: *review,* **554**
immunosuppression, New immunosuppressive drugs and lung transplantation: last or least?: *review,* **550**
impact factor, Impact factors for 1998: *editorial,* **960**
induced sputum, Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**
Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effect of methacholine challenge on cellular composition of sputum induction, **37**
Increased neutrophils and cytokines, TNF-α and IL-8, in induced sputum of non-asthmatic patients with chronic dry cough, **234**
Methacholine challenge and sputum induction: *letter,* **751**
Objective quantitative analysis of eosinophils and bronchial epithelial cells in induced sputum by laser scanning cytometry, **124**
inducible nitric oxide synthase, Inducible nitric oxide and pulmonary infection: *editorial,* **959**
industrial injuries benefits, Industrial injuries benefits for coal miners with obstructive lung disease: *letter,* **282**
infants, A novel non-invasive technique for measuring the residual lung volume by nitrogen washout with rapid thoracoabdominal compression in infants, **874**
The open circuit nitrogen washout technique for measuring the lung volume in infants: methodological aspects, **790**
inflammation, Increased carbon monoxide in exhaled air of patients with cystic fibrosis, **917**
inflammatory airways disease, Application of functional genomics to study of inflammatory airways disease: *review,* **79**
influenza, Successful treatment of post-influenza pseudomembranous necrotising bronchial aspergillosis with liposomal amphotericin, inhaled amphotericin B, gamma interferon and GM-CSF, **1047**
inhaled bronchodilators, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
inhaled corticosteroids, Chronic cough: *letter,* **563**
Effect of differing doses of inhaled budesonide on markers of airway inflammation in patients with mild asthma, **108**
Effect of inhaled corticosteroid therapy on bone markers and bone density: *letter,* **861**
Effect of inhaled corticosteroids on bronchial responsiveness in patients with "corticosteroid naive" mild asthma: a meta-analysis, **316**
Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effects of inhaled β agonist and corticosteroid treatment on nuclear transcription factors in bronchial mucosa in asthma, **488**
EUROSCOP, ISOLDE and the Copenhagen City Lung Study: *editorial,* **287**
Evaluation of the buccal component of systemic absorption with inhaled fluticasone propionate, **614**
Inhaled corticosteroids in COPD: *letter,* **186**
Inhaled corticosteroids in COPD: *letter,* **655**
Long term effects of inhaled corticosteroids in chronic obstructive pulmonary disease: a meta-analysis, **7**
New immunosuppressive drugs and lung transplantation: last or least?: *review,* **550**
One year prospective open study of the effect of high dose inhaled steroids, fluticasone propionate, and budesonide on bone markers and bone mineral density, **223**
Peak flow variation in childhood asthma: correlation with symptoms, airways obstruction, and hyperresponsiveness during long term treatment with inhaled corticosteroids, **103**
Randomised trial of an inhaled β_2 agonist, inhaled corticosteroid and their combination in the treatment of asthma, **482**
Re-assessing the evidence about inhaled corticosteroids in chronic obstructive pulmonary disease: *editorial,* **3**
Vascularity in asthmatic airways: relation to inhaled steroid dose, **289**
Vascularity in asthmatic airways: relation to inhaled steroid dose: *editorial,* **283**
inhaled cyclosporin, New immunosuppressive drugs and lung transplantation: last or least?: *review,* **550**
inhaled β_2 agonists, Randomised trial of an inhaled β_2 agonist, inhaled corticosteroid and their combination in the treatment of asthma, **482**
inhaled nitric oxide, Pulmonary hypertension: its assessment and treatment, **S28 (Suppl 2)**
inspiratory lung resistance, Lung volume reduction surgery, **S14 (Suppl 2)**
intensive care, Elastic pressure–volume curves: what information do they convey?: *review,* **82**
intensive care unit, Prevention of nosocomial bacterial pneumonia: *review,* **544**
intercostal drain, A physiological comparison of flutter valve drainage bags and underwater seal systems for postoperative air leaks, **442**
Postoperative air leaks: *letter,* **1141**
interferon gamma, Interferon gamma for diagnosing tuberculous pleural effusions, **921**
interleukin 10, Circulating interleukin 6 and interleukin 10 in community acquired pneumonia, **51**
interleukin 16, Increased levels of interleukin-16 in the airways of tobacco smokers: relationship with peripheral blood T lymphocytes, **911**
interleukin 6, Circulating interleukin 6 and interleukin 10 in community acquired pneumonia, **51**
international, Prevalence of atopy, asthma symptoms and diagnosis, and the management of asthma: comparison of an affluent and a non-affluent country, **606**
Internet, Rare diseases: *letter,* **1141**
interstitial lung disease, Clinical significance of respiratory bronchiolitis on open lung biopsy and its relationship to smoking related interstitial lung disease, **1009**
intervention, Long term outcome of soybean epidemic asthma after an allergen reduction intervention, **670**
intimal fibrosis, Pulmonary hypertension secondary to neurofibromatosis: intimal fibrosis versus thromboembolism, **858**
intralobar pulmonary sequestration, Management of antenatally diagnosed pulmonary sequestration associated with congenital cystic adenomatoid malformation, **701**
intravascular sarcoma, Pulmonary artery sarcoma diagnosed using intravascular ultrasound images, **748**
intravascular sclerosing bronchioalveolar tumour, Epithelioid haemangioendothelioma, **560**
intravascular ultrasound, Pulmonary artery sarcoma diagnosed using intravascular ultrasound images, **748**

Korea, Pulmonary lymphangioleiomyomatosis in Korea, **618**

lactate threshold, Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma, **196**
laryngeal aspergillosis, Laryngeal aspergillosis following high dose inhaled fluticasone therapy for asthma, **860**
laser scanning cytometry, Objective quantitative analysis of eosinophils and bronchial epithelial cells in induced sputum by laser scanning cytometry, **124**
leukotriene antagonists, Leukotriene antagonists and Churg-Strauss syndrome: the smoking gun: *editorial*, **865**
leukotrienes, Effect of intravenous corticosteroid on ex vivo leukotriene generation by blood leucocytes of normal and asthmatic patients, **1075**
lower respiratory disease, Association of air pollution with daily GP consultations for asthma and other lower respiratory conditions in London, **597**
lung, Variation of bronchoalveolar lymphocyte phenotypes with age in the physiologically normal human lung, **697**
lung biopsies, Clinical diagnosis of ventilator associated pneumonia revisited: comparative validation using immediate post-mortem lung biopsies, **867**
lung cancer, Crystalline silica exposure, radiological silicosis, and lung cancer mortality in diatomaceous earth industry workers, **56**
Effect of thoracotomy and lung resection on exercise capacity in patients with lung cancer, **334**
Fluorescence bronchoscopy for the early detection of lung cancer: *review*, **180**
Is there a role for adjuvant therapy for resected non-small cell lung cancer?, **S37 (Suppl 2)**
Reading numbers aloud: a measure of the limiting effect of breathlessness in patients with cancer, **1099**
Repeatability of breathlessness measurements in cancer patients: *letter*, **375**
Resection rates in lung cancer: *letter*, **374**
Rising incidence of SCLC in young women: *letter*, **656**
Silica dust and lung cancer in the German stone, quarrying and ceramics industries: results of a case-control study, **347**
Surgical resection rate in lung cancer: *letter*, **375**
lung fibrosis, Reduction of bleomycin induced lung fibrosis by transforming growth factor β soluble receptor in hamsters, **805**
lung function, Dietary factors and pulmonary function: a cross sectional study in middle aged men from three European countries, **1021**
Genetic epidemiology of pulmonary function: *review*, **818**
Late pulmonary sequelae after childhood bone marrow transplantation, **131**
lung function tests, A novel non-invasive technique for measuring the residual lung volume by nitrogen washout with rapid thoracoabdominal compression in infants, **874**
The open circuit nitrogen washout technique for measuring the lung volume in infants: methodological aspects, **790**
lung neoplasms, Transthoracic needle aspiration biopsy for the diagnosis of localised pulmonary lesions: a meta-analysis, **884**
lung parenchyma, Muscarinic blockade of methacholine induced airway and parenchymal lung responses in anaesthetised rats, **531**
lung transplantation, Lung transplantation for chronic obstructive pulmonary disease: an exercise in quality rather than quantity?, **S24 (Suppl 2)**
New immunosuppressive drugs and lung transplantation: last or least?: *review*, **550**
Pulmonary lymphangioleiomyomatosis in Korea, **618**
Surgery and the respiratory muscles: *review*, **458**
lung volume, A novel non-invasive technique for measuring the residual lung volume by nitrogen washout with rapid thoracoabdominal compression in infants, **874**
Comparison of two new methods for the measurement of lung volumes with two standard methods, **329**
lung volume reduction surgery, Imaging in the evaluation of emphysema: *editorial*, **379**
Lung volume reduction surgery (LVRS) for chronic obstructive pulmonary disease (COPD) with underlying severe emphysema, **779**
Lung volume reduction surgery, **S14 (Suppl 2)**
Surgery and the respiratory muscles: *review*, **458**
lymphangioleiomyomatosis, Lymphangioleiomyomatosis: clinical features, management and basic mechanisms: *review*, **254**
Pulmonary lymphangioleiomyomatosis in Korea, **618**
lymphocyte, Variation of bronchoalveolar lymphocyte phenotypes with age in the physiologically normal human lung, **697**

α_2-macroglobulin, Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**
macrolide antibiotics, The anti-inflammatory effects of macrolides, **S58 (Suppl 2)**
macrophages, Phenotypic analysis of lymphocytes and monocytes/macrophages in peripheral blood and bronchoalveolar lavage fluid from patients with pulmonary sarcoidosis, **339**
magnesium, Dietary antioxidants and magnesium in type 1 brittle asthma: a case control study, **115**
magnetic resonance imaging, Neck soft tissue and fat distribution: comparison between normal men and women by magnetic resonance imaging, **323**
management, COPD guidelines: *letter*, **375**
mandibular advancement oral appliance, Mandibular advancement oral appliance therapy for obstructive sleep apnoea: effect on awake calibre of the velopharynx, **972**
mast cells, Mast cell chymase in pulmonary hypertension, **88**
mathematical modelling, Comparison of two new methods for the measurement of lung volumes with two standard methods, **329**
matrix metalloproteinases, Immunohistochemical localisation of the matrix metalloproteinases MMP-3 and MMP-9 within the airways in asthma, **590**
The plasmin cascade and matrix metalloproteinases in non-small cell lung cancer: *review*, **169**
maximal oxygen uptake, Short term effects of aerobic training in the clinical management of moderate to severe asthma in children, **202**
measurement, Comparison of two new methods for the measurement of lung volumes with two standard methods, **329**
Nasal nitric oxide in man: *review*, **947**
Reading numbers aloud: a measure of the limiting effect of breathlessness in patients with cancer, **1099**
mechanical ventilation, Lung and chest wall mechanics in ventilated patients with end stage idiopathic pulmonary fibrosis, **390**
mediastinal mass, Idiopathic azygos vein aneurysm: a rare cause of mediastinal mass, **653**
medical school, Teaching medical students about tobacco: *review*, **70**
medical students, Medical students' knowledge of smoking: *editorial*, **2**
Medical students' knowledge of smoking: *letter*, **657**
Medical students' knowledge of tobacco: *letter*, **564**
Teaching medical students about tobacco: *review*, **70**
meta-analysis, Transthoracic needle aspiration biopsy for the diagnosis of localised pulmonary lesions: a meta-analysis, **884**
metalloprotease, Collagen degrading activity associated with *Mycobacterium* species, **439**
metered dose inhalers, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
methacholine challenge, Effect of methacholine challenge on cellular composition of sputum induction, **37**
Methacholine challenge and sputum induction: *letter*, **751**
methotrexate, A clinical approach to the use of methotrexate for sarcoidosis: *review*, **742**
Effective immunosuppressive therapy in a patient with primary pulmonary hypertension, **372**
middle age, Remission of asthma in the middle aged and elderly: report from the Obstructive Lung Disease in Northern Sweden study, **611**
midline peripheral venous catheter, Acute anaphylaxis following midline catheterisation in a patient with cystic fibrosis, **747**
misoprostol, A six week double blind, placebo controlled, crossover study of the effect of misoprostol in the treatment of aspirin sensitive asthma, **900**
modified shuttle test, Validity of a modified shuttle test in adult cystic fibrosis, **437**
molecular theory, The molecular basis of asbestos induced lung injury: *review*, **638**
montelukast, Pulmonary eosinophilia associated with montelukast, **558**
morbidity, Morbidity from asthma in relation to regular treatment: a community based study, **296**
Morbidity Survey in General Practice (MSGP4), Use of the General Practice Research Database (GPRD) for respiratory epidemiology: a comparison with the 4th Morbidity Survey in General Practice (MSGP4), **413**
motor neurone disease, Ethical and clinical issues in the use of home non-invasive mechanical ventilation for the palliation of breathlessness in motor neurone disease: *review*, **367**
MRC dyspnoea scale, Usefulness of the Medical Research Council (MRC) dyspnoea scale as a measure of disability in patients with chronic obstructive pulmonary disease, **581**
multipuncture administration, Administration of the BCG vaccination using the multipuncture method in schoolchildren: a comparison with the intradermal method, **762**
muscarinic blockade, Muscarinic blockade of methacholine induced airway and parenchymal lung responses in anaesthetised rats, **531**
Mycobacterium tuberculosis, Collagen degrading activity associated with *Mycobacterium* species, **439**
mycophenolate mofetil, New immunosuppressive drugs and lung transplantation: last or least?: *review*, **550**

nasal lavage, Histamine release upon adenosine 5'-monophosphate (AMP) nasal provocation in allergic subjects, **230**
nasal nitric oxide, Nasal nitric oxide in man: *review*, **947**
nasal potential difference, Can manifesting heterozygotes have cystic fibrosis?: *editorial*, **194**
Clinical presentation of exclusive cystic fibrosis lung disease, **278**
nasal pressure recording, A quagmire for clinicians: when technological advances exceed clinical knowledge: *editorial*, **474**

Nasal pressure recording in the diagnosis of sleep apnoea hypopnoea syndrome, **506**

nasal provocation, Histamine release upon adenosine 5'-monophosphate (AMP) nasal provocation in allergic subjects, **230**
Nasal provocation with AMP: *letter,* **1050**

nebuliser, Nebulised corticosteroids in the treatment of patients with asthma: *editorial,* **661**

neck fat, Neck soft tissue and fat distribution: comparison between normal men and women by magnetic resonance imaging, **323**

nedocromil sodium, Early use of inhaled nedocromil sodium in children following an acute episode of asthma, **308**

needle biopsy, Transthoracic needle aspiration biopsy for the diagnosis of localised pulmonary lesions: a meta-analysis, **884**

neurofibromatosis, Pulmonary hypertension secondary to neurofibromatosis: intimal fibrosis versus thromboembolism, **858**

neutrophils, Increased neutrophils and cytokines, TNF-α and IL-8, in induced sputum of non-asthmatic patients with chronic dry cough, **234**
Inflammatory cells and cellular activation in the lower respiratory tract in Churg-Strauss syndrome, **771**
Inhaled corticosteroids in COPD: *letter,* **186**

nitric oxide, Effect of inhaled steroids on airway hyperresponsiveness, sputum eosinophils, and exhaled nitric oxide levels in patients with asthma, **403**
Effect of oral L-arginine on airway hyperresponsiveness to histamine in asthma, **1033**
Increased carbon monoxide in exhaled air of patients with cystic fibrosis, **917**
Inducible nitric oxide and pulmonary infection: *editorial,* **959**
Role of NO in recovery from neonatal hypoxic pulmonary hypertension, **796**

nitrite, Effect of inhaled ozone on exhaled nitric oxide, pulmonary function, and induced sputum in normal and asthmatic subjects, **1061**

nitrogen balance, Comparison of two new methods for the measurement of lung volumes with two standard methods, **329**

nitrogen washout, A novel non-invasive technique for measuring the residual lung volume by nitrogen washout with rapid thoracoabdominal compression in infants, **874**
The open circuit nitrogen washout technique for measuring the lung volume in infants: methodological aspects, **790**

nocturnal oximetry, Nocturnal oximetry for the diagnosis of the sleep apnoea hypopnoea syndrome: a method to reduce the number of polysomnographies?, **968**
Sleep on the cheap: the role of overnight oximetry in the diagnosis of sleep apnoea hypopnoea syndrome: *editorial,* **958**

non-invasive mechanical ventilation, Ethical and clinical issues in the use of home non-invasive mechanical ventilation for the palliation of breathlessness in motor neurone disease: *review,* **367**

non-invasive positive pressure ventilation, Domiciliary NIPPV in COPD: *letter,* **91**

non-small cell lung cancer, The plasmin cascade and matrix metalloproteinases in non-small cell lung cancer: *review,* **169**

nosocomial pneumonia, Acute respiratory distress syndrome and nosocomial pneumonia: *review,* **1036**
Prevention of nosocomial bacterial pneumonia: *review,* **544**

numerical rating scale, Repeatability of breathlessness measurements in cancer patients: *letter,* **375**

obstructive lung disease, Industrial injuries benefits for coal miners with obstructive lung disease: *letter,* **282**

obstructive sleep apnoea, Effect of high versus low ambient humidity on the severity of obstructive sleep apnoea, **711**
Mandibular advancement oral appliance therapy for obstructive sleep apnoea: effect on awake calibre of the velopharynx, **972**
Oral airway resistance during wakefulness in patients with obstructive sleep apnoea, **423**
Two months follow up of auto-CPAP treatment in patients with obstructive sleep apnoea, **147**

oestrogens, Do exogenous oestrogens and progesterone influence asthma?: *review,* **265**

oral airway resistance, Oral airway resistance during wakefulness in patients with obstructive sleep apnoea, **423**

osteoporosis, Bone loss and glucocorticoid therapy in patients with respiratory disease, **S52 (Suppl 2)**
Bone mineral density in adults with cystic fibrosis: *editorial,* **957**
Low bone mineral density in adults with cystic fibrosis, **961**

outpatient clinic, Evaluation of a randomised controlled trial of adult asthma education in a hospital setting, **493**

oxidative stress, Increased carbon monoxide in exhaled air of patients with cystic fibrosis, **917**
Oxidative stress during acute respiratory exacerbations in cystic fibrosis, **518**

oxitropium bromide, Acute effect of pretreatment with single conventional dose of salmeterol on dose-response curve to oxitropium bromide in chronic obstructive pulmonary disease, **1083**

oxygen therapy, Evaluation of pulsed dose oxygen delivery during exercise in patients with severe chronic obstructive pulmonary disease, **242**
Pulsed dose oxygen delivery system: *letter,* **750**

ozone, Effect of inhaled ozone on exhaled nitric oxide, pulmonary function, and induced sputum in normal and asthmatic subjects, **1061**

pain control, Percutaneous cervical cordotomy for the control of pain in patients with pleural mesothelioma, **238**

paradoxical embolism, Paradoxical embolism in a boy with cystic fibrosis and a stroke, **1139**

parasite infections, Parasite infections and the risk of asthma and atopy: *editorial,* **659**

parental smoking, Health effects of passive smoking: *letter,* **469**
Summary of effects of parental smoking on the respiratory health of children and implications for research, **357**

passive smoking, Health effects of passive smoking: *letter,* **469**
Summary of effects of parental smoking on the respiratory health of children and implications for research, **357**

pathogenesis, *Streptococcus pneumoniae*: *review,* **929**
Vascular endothelial growth factor (VEGF) in inflammatory and malignant pleural effusions, **707**
Wegener's granulomatosis: *review,* **629**

patient education, Objectives, methods and content of patient education programmes for adults with asthma: systematic review of studies published between 1979 and 1998, **681**

peak expiratory flow, Can peak expiratory flow measurements reliably identify the presence of airway obstruction and bronchodilator response as assessed by FEV_1 in primary care patients presenting with a persistent cough?, **1055**
Diagnosing airflow obstruction in general practice: *editorial,* **1051**
FEV_1 and PEF in COPD management: *letter,* **468**
Peak flow variation in childhood asthma: correlation with symptoms, airways obstruction, and hyperresponsiveness during long term treatment with inhaled corticosteroids, **103**

perception, Relation of the perception of airway obstruction to the severity of asthma, **15**

performance enhancement, Athletes and doping: effects of drugs on the respiratory system: *review,* **1041**

phenotype, Phenotypic analysis of lymphocytes and monocytes/macrophages in peripheral blood and bronchoalveolar lavage fluid from patients with pulmonary sarcoidosis, **339**

phrenic nerve conduction time, Effect of brachial plexus co-activation on phrenic nerve conduction time, **765**

physical fitness, Short term effects of aerobic training in the clinical management of moderate to severe asthma in children, **202**

plasma exudation, Demonstration of bronchial eosinophil activity in seasonal allergic rhinitis by induced plasma exudation combined with induced sputum, **33**

plasmin, The plasmin cascade and matrix metalloproteinases in non-small cell lung cancer: *review,* **169**

pleural drainage, A physiological comparison of flutter valve drainage bags and underwater seal systems for postoperative air leaks, **442**

pleural effusion, Interferon gamma for diagnosing tuberculous pleural effusions, **921**
Pyoderma gangrenosum with lung injury, **953**
Vascular endothelial growth factor (VEGF) in inflammatory and malignant pleural effusions, **707**

pleural mesothelioma, Percutaneous cervical cordotomy for the control of pain in patients with pleural mesothelioma, **238**

pneumococcal pneumonia, *Streptococcus pneumoniae*: *review,* **929**

pneumonectomy, Effect of thoracotomy and lung resection on exercise capacity in patients with lung cancer, **334**

pneumonia, Intrapulmonary protein leakage in immunocompromised children and adults with pneumonia, **432**
Providing better care for patients who may have pneumonia: *review,* **925**

pneumothorax, Postoperative air leaks: *letter,* **1141**

polymerase chain reaction, Identification of HIV patients with active pulmonary tuberculosis using urine based polymerase chain reaction assay, **145**

polymorphism, Glutathione S-transferase P1 (GSTP1) polymorphism in patients with chronic obstructive pulmonary disease, **693**

polyoma virus, Simian virus 40 and human pleural mesothelioma, **60**

polysomnography, Two months follow up of auto-CPAP treatment in patients with obstructive sleep apnoea, **147**

porcine pulmonary hypertension, Role of NO in recovery from neonatal hypoxic pulmonary hypertension, **796**

postoperative air leak, A physiological comparison of flutter valve drainage bags and underwater seal systems for postoperative air leaks, **442**
Postoperative air leaks: *letter,* **1141**

prednisolone, Effects of inhaled fluticasone and oral prednisolone on clinical and inflammatory parameters in patients with asthma, **894**

pressure support ventilation, Changes in occlusion pressure ($P_{0.1}$) and breathing pattern during pressure support ventilation, **119**

prevalence, Prevalence of atopy, asthma symptoms and diagnosis, and the management of asthma: comparison of an affluent and a non-affluent country, **606**

primary care, Are we too ready to diagnose asthma in children?: *review,* **625**
Introduction: *review,* **538**
Providing better asthma care: what is there left to do?: *review,* **813**

Providing better care for patients who may have pneumonia: *review*, **925**
The challenge of improving the delivery of lung cancer care: *review*, **540**
primary pulmonary hypertension, Primary pulmonary hypertension: *review*, **1107**
progesterone, Do exogenous oestrogens and progesterone influence asthma?: *review*, **265**
prostacyclin, Pulmonary hypertension: its assessment and treatment, **S28 (Suppl 2)**
prostaglandin E_1, A six week double blind, placebo controlled, crossover study of the effect of misoprostol in the treatment of aspirin sensitive asthma, **900**
protein leakage, Intrapulmonary protein leakage in immunocompromised children and adults with pneumonia, **432**
Pseudomonas aeruginosa, Avidity of anti-*P aeruginosa* antibodies during chronic infection in patients with cystic fibrosis, **141**
public health, Carrots, sticks and tuberculosis: *editorial*, **95**
More carrot or more stick or both?: *editorial*, **96**
Reform of the Public Health Act: *letter*, **750**
pulmonary arteriovenous malformations, Hereditary haemorrhagic telangiectasia and pulmonary arteriovenous malformations: issues in clinical management and review of pathogenic mechanisms: *review*, **714**
pulmonary artery, Pulmonary artery sarcoma diagnosed using intravascular ultrasound images, **748**
pulmonary embolism, Pulmonary embolism: *letter*, **562**
Rapid D-dimer testing as an adjunct to clinical findings in excluding pulmonary embolism, **S33 (Suppl 2)**
pulmonary eosinophilia, Pulmonary eosinophilia associated with montelukast, **558**
pulmonary hypertension, Effective immunosuppressive therapy in a patient with primary pulmonary hypertension, **372**
Enhanced expression of vascular endothelial growth factor in lungs of newborn infants with congenital diaphragmatic hernia and pulmonary hypertension, **427**
Mast cell chymase in pulmonary hypertension, **88**
Pulmonary hypertension: its assessment and treatment, **S28 (Suppl 2)**
Role of serotonin in the pathogenesis of acute and chronic pulmonary hypertension: *review*, **161**
Treatment of pulmonary hypertension secondary to connective tissue diseases: *review*, **273**
pulmonary infection, Inducible nitric oxide and pulmonary infection: *editorial*, **959**
pulmonary mechanics, Lung and chest wall mechanics in ventilated patients with end stage idiopathic pulmonary fibrosis, **390**
pulmonary medicine, Genetics and pulmonary medicine: asthma: *review*, **65**
pulmonary rehabilitation, The prediction of benefit from pulmonary rehabilitation: setting, training intensity and the effect of selection by disability, **S3 (Suppl 2)**
pulmonary thromboembolism, Pulmonary hypertension secondary to neurofibromatosis: intimal fibrosis versus thromboembolism, **858**
pulmonary thromboendarterectomy, Pulmonary thromboendarterectomy for chronic thromboembolic pulmonary hypertension: *editorial*, **755**
pulse transit time, Pulse transit time: an appraisal of potential clinical applications: *review*, **452**
pulsed dose oxygen delivery, Evaluation of pulsed dose oxygen delivery during exercise in patients with severe chronic obstructive pulmonary disease, **242**
Pulsed dose oxygen delivery system: *letter*, **750**
pyoderma gangrenosum, Pyoderma gangrenosum with lung injury, **953**

quality of life, An empirical comparison of the St George's Respiratory Questionnaire (SGRQ) and the Chronic Respiratory Disease Questionnaire (CRQ) in a clinical trial setting, **995**

race, Temporal trends and ethnic variations in asthma mortality in Singapore, 1976–1995, **990**
radiotherapy, Is there a role for adjuvant therapy for resected non-small cell lung cancer?, **S37 (Suppl 2)**
rapamycin, New immunosuppressive drugs and lung transplantation: last or least?: *review*, **550**
rare lung diseases, Amyloidosis and the respiratory tract: *review*, **444**
Hereditary haemorrhagic telangiectasia and pulmonary arteriovenous malformations: issues in clinical management and review of pathogenic mechanisms: *review*, **714**
Introduction: *review*, **253**
Lymphangioleiomyomatosis: clinical features, management and basic mechanisms: *review*, **254**
Primary pulmonary hypertension: *review*, **1107**
Rare diseases: *letter*, **1141**
redundant publication, Duplicate publication, redundant publication, and disclosure of closely related publications: *editorial*, **378**
regional distribution, Comparison of low attenuation areas on computed tomographic scans between inner and outer segments of the lung in patients with chronic obstructive pulmonary disease: incidence and contribution to lung function, **384**
related publications, Duplicate publication, redundant publication, and disclosure of closely related publications: *editorial*, **378**
remission, Remission of asthma in the middle aged and elderly: report from the Obstructive Lung Disease in Northern Sweden study, **611**
rescue therapy, Treatment of adult respiratory distress syndrome: plea for rescue therapy of the alveolar epithelium: *review*, **150**
resection, Resection rates in lung cancer: *letter*, **374**
Surgical resection rate in lung cancer: *letter*, **375**
(RBILD), Clinical significance of respiratory bronchiolitis on open lung biopsy and its relationship to smoking related interstitial lung disease, **1009**
respiratory disease, Bone loss and glucocorticoid therapy in patients with respiratory disease, **S52 (Suppl 2)**
Gas cooking and respiratory disease: *editorial*, **1054**
Introduction: *review*, **538**
Respiratory symptoms in older people and use of domestic gas appliances, **1104**
Use of the General Practice Research Database (GPRD) for respiratory epidemiology: a comparison with the 4th Morbidity Survey in General Practice (MSGP4), **413**
respiratory exacerbation, Oxidative stress during acute respiratory exacerbations in cystic fibrosis, **518**
respiratory infection, Relationship between early life respiratory illness, family size over time, and the development of asthma and hay fever: a seven year follow up study, **664**
respiratory muscle function, Surgery and respiratory muscles: *letter*, **1140**
Surgery and the respiratory muscles: *review*, **458**
respiratory rate, Pulmonary embolism: *letter*, **562**
respiratory system, Athletes and doping: effects of drugs on the respiratory system: *review*, **1041**
review, Prevalence of depression in patients with chronic obstructive pulmonary disease: a systematic review, **688**
rhDNase, rhDNase in cystic fibrosis: *letter*, **752**
rhinitis, Respiratory symptoms and home environment in children: a national survey, **27**
risk factors, Risk factors for death from asthma, chronic obstructive pulmonary disease, and cardiovascular disease after a hospital admission for asthma, **301**
road traffic pollution, Case-control study of hospital admission with asthma in children aged 5–14 years: relation with road traffic in north west London, **1070**

salbutamol, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
salmeterol, Acute effect of pretreatment with single conventional dose of salmeterol on dose-response curve to oxitropium bromide in chronic obstructive pulmonary disease, **1083**
Addition of salmeterol versus doubling the dose of fluticasone propionate in patients with mild to moderate asthma, **207**
Effect of a single dose of salmeterol on the increase in airway eosinophils induced by allergen challenge in asthmatic subjects, **622**
sampling, Clinical diagnosis of ventilator associated pneumonia revisited: comparative validation using immediate post-mortem lung biopsies, **867**
sarcoidosis, A clinical approach to the use of methotrexate for sarcoidosis: *review*, **742**
Inter-relationship between tumour necrosis factor-alpha (TNF-α) and TNF soluble receptors in pulmonary sarcoidosis, **524**
Phenotypic analysis of lymphocytes and monocytes/macrophages in peripheral blood and bronchoalveolar lavage fluid from patients with pulmonary sarcoidosis, **339**
Serum angiotensin converting enzyme: *letter*, **93**
Serum angiotensin converting enzyme: *letter*, **93**
Scotland, Scottish Confidential Inquiry into Asthma Deatns (SCIAD), 1994–6, **978**
screening, Screening older patients for obstructive airways disease: *editorial*, **472**
Screening older patients for obstructive airways disease in a semi-rural practice, **501**
seasonality, Summer tuberculosis: *letter*, **862**
selenium, Dietary antioxidants and magnesium in type 1 brittle asthma: a case control study, **115**
self-management, Objectives, methods and content of patient education programmes for adults with asthma: systematic review of studies published between 1979 and 1998, **681**
self-supervised treatment, Directly observed therapy (DOT) for tuberculosis: why, when, how and if?, **S42 (Suppl 2)**
serotonin, Role of serotonin in the pathogenesis of acute and chronic pulmonary hypertension: *review*, **161**
serum angiotensin converting enzyme, Serum angiotensin converting enzyme: *letter*, **93**
Serum angiotensin converting enzyme: *letter*, **93**
sex differences, Gender differences in airway behaviour over the human life span: *review*, **1119**
Neck soft tissue and fat distribution: comparison between normal men and women by magnetic resonance imaging, **323**
Sex differences and sleep apnoea: *editorial*, **284**
side effects, Pulmonary eosinophilia associated with montelukast, **558**

silica dust, Crystalline silica exposure, radiological silicosis, and lung cancer mortality in diatomaceous earth industry workers, **56**
Silica dust and lung cancer in the German stone, quarrying and ceramics industries: results of a case-control study, **347**
silicosis, Crystalline silica exposure, radiological silicosis, and lung cancer mortality in diatomaceous earth industry workers, **56**
Simian virus 40 (SV40), Simian virus 40 and human pleural mesothelioma, **60**
Simian virus 40 and human pleural mesothelioma: *letter,* **750**
sleep apnoea, Neck soft tissue and fat distribution: comparison between normal men and women by magnetic resonance imaging, **323**
Pulse transit time: an appraisal of potential clinical applications: *review,* **452**
Sex differences and sleep apnoea: *editorial,* **284**
sleep apnoea hypopnoea syndrome, A quagmire for clinicians: when technological advances exceed clinical knowledge: *editorial,* **474**
Nasal pressure recording in the diagnosis of sleep apnoea hypopnoea syndrome, **506**
Nocturnal oximetry for the diagnosis of the sleep apnoea hypopnoea syndrome: a method to reduce the number of polysomnographies?, **968**
Sleep on the cheap: the role of overnight oximetry in the diagnosis of sleep apnoea hypopnoea syndrome: *editorial,* **958**
sleep apnoea syndrome, Nocturnal oximetry for the diagnosis of the sleep apnoea hypopnoea syndrome: a method to reduce the number of polysomnographies?, **968**
Sleep on the cheap: the role of overnight oximetry in the diagnosis of sleep apnoea hypopnoea syndrome: *editorial,* **958**
smoking, Clinical significance of respiratory bronchiolitis on open lung biopsy and its relationship to smoking related interstitial lung disease, **1009**
Exhaled nitric oxide in COPD: glancing through a smoke screen: *editorial,* **565**
Increased exhaled nitric oxide in patients with stable chronic obstructive pulmonary disease, **572**
Increased levels of interleukin-16 in the airways of tobacco smokers: relationship with peripheral blood T lymphocytes, **911**
Markers of nitric oxide metabolism in sputum and exhaled air are not increased in chronic obstructive pulmonary disease, **576**
Medical students' knowledge of smoking: *editorial,* **2**
Medical students' knowledge of smoking: *letter,* **657**
Medical students' knowledge of tobacco: *letter,* **564**
Respiratory symptoms and home environment in children: a national survey, **27**
Teaching medical students about tobacco: *review,* **70**
smoking cessation, Helping people to stop smoking: the new smoking cessation guidelines: *editorial,* **1**
smooth muscle cells, Role of NO in recovery from neonatal hypoxic pulmonary hypertension, **796**
social interaction, Impact of social interactions in the community on the transmission of tuberculosis in a high incidence area, **136**
socioeconomic status, Socioeconomic status and chronic obstructive pulmonary disease: *review,* **737**
socioeconomic variation, Geographical and socioeconomic variation in the prevalence of asthma symptoms in English and Scottish children, **476**
The burden of asthma: weighting the community risk against individual risk: *editorial,* **471**
soybean, Long term outcome of soybean epidemic asthma after an allergen reduction intervention, **670**
spacer, Early use of inhaled nedocromil sodium in children following an acute episode of asthma, **308**
spirometric indices, Health effects of passive smoking: *letter,* **469**
spirometry, FEV_1 and PEF in COPD management: *letter,* **468**
sputum, Markers of nitric oxide metabolism in sputum and exhaled air are not increased in chronic obstructive pulmonary disease, **576**
St George's Respiratory Questionnaire, An empirical comparison of the St George's Respiratory Questionnaire (SGRQ) and the Chronic Respiratory Disease Questionnaire (CRQ) in a clinical trial setting, **995**
Staphylococcus aureus, Systematic review of antistaphylococcal antibiotic therapy in cystic fibrosis, **380**
Treatment of *Staphylococcus aureus* in cystic fibrosis: *editorial,* **377**
stone and quarry industry, Silica dust and lung cancer in the German stone, quarrying and ceramics industries: results of a case-control study, **347**
Streptococcus pneumoniae, *Streptococcus pneumoniae*: *review,* **929**
surface tension, Effect of high versus low ambient humidity on the severity of obstructive sleep apnoea, **711**
surgery, Is there a role for adjuvant therapy for resected non-small cell lung cancer?, **S37 (Suppl 2)**
survival, Survival estimates for adults with cystic fibrosis born in the United Kingdom between 1947 and 1967, **420**
swimming training, Effects of swimming training on aerobic capacity and exercise induced bronchoconstriction in children with bronchial asthma, **196**
symptom development, Asymptomatic bronchial hyperresponsiveness to exercise in childhood and the development of asthma related symptoms in young adulthood: the Odense Schoolchild Study, **587**
symptoms, Prevalence of atopy, asthma symptoms and diagnosis, and the management of asthma: comparison of an affluent and a non-affluent country, **606**
systematic review, Systematic review of antistaphylococcal antibiotic therapy in cystic fibrosis, **380**

T cells, Phenotypic analysis of lymphocytes and monocytes/macrophages in peripheral blood and bronchoalveolar lavage fluid from patients with pulmonary sarcoidosis, **339**
Variation of bronchoalveolar lymphocyte phenotypes with age in the physiologically normal human lung, **697**
tacrolimus, New immunosuppressive drugs and lung transplantation: last or least?: *review,* **550**
terbutaline, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
thalassaemia, Intrathoracic extramedullary haematopoiesis complicated by massive haemothorax in alpha-thalassaemia, **466**
theophylline, Long acting β_2 agonists and theophylline in stable chronic obstructive pulmonary disease: *review,* **730**
therapeutic equivalence, Review of therapeutically equivalent alternatives to short acting β_2 adrenoceptor agonists delivered via chlorofluorocarbon-containing inhalers, **1087**
thoracotomy, Effect of thoracotomy and lung resection on exercise capacity in patients with lung cancer, **334**
Thorax, Impact factors for 1998: *editorial,* **960**
Thorax **with extra "*e*":** *editorial,* **189**
TNF/HLA-DR haplotypes, Extended tumour necrosis factor/HLA-DR haplotypes and asthma in an Australian population sample, **757**
tobacco, Glutathione S-transferase P1 (GSTP1) polymorphism in patients with chronic obstructive pulmonary disease, **693**
Increased levels of interleukin-16 in the airways of tobacco smokers: relationship with peripheral blood T lymphocytes, **911**
Medical students' knowledge of smoking: *editorial,* **2**
Medical students' knowledge of smoking: *letter,* **657**
Medical students' knowledge of tobacco: *letter,* **564**
Teaching medical students about tobacco: *review,* **70**
tracheal stenosis, Tracheobronchial malacia and stenosis in children in intensive care: bronchograms help to predict oucome, **511**
tracheobronchitis, Successful treatment of post-influenza pseudomembranous necrotising bronchial aspergillosis with liposomal amphotericin, inhaled amphotericin B, gamma interferon and GM-CSF, **1047**
tracheobronchomalacia, Tracheobronchial malacia and stenosis in children in intensive care: bronchograms help to predict oucome, **511**
transcription factors, Effects of inhaled β agonist and corticosteroid treatment on nuclear transcription factors in bronchial mucosa in asthma, **488**
transforming growth factor β, Effective immunosuppressive therapy in a patient with primary pulmonary hypertension, **372**
transforming growth factor β (TGF-β) soluble receptor, Reduction of bleomycin induced lung fibrosis by transforming growth factor β soluble receptor in hamsters, **805**
transmission, Impact of social interactions in the community on the transmission of tuberculosis in a high incidence area, **136**
treatment, Is there a role for adjuvant therapy for resected non-small cell lung cancer?, **S37 (Suppl 2)**
Morbidity from asthma in relation to regular treatment: a community based study, **296**
Nebulised corticosteroids in the treatment of patients with asthma: *editorial,* **661**
Pulmonary hypertension: its assessment and treatment, **S28 (Suppl 2)**
The diagnosis, assessment and treatment of diffuse parenchymal lung disease in adults, **S1 (Suppl 1)**
Wegener's granulomatosis: *review,* **629**
tryptase, Mast cell chymase in pulmonary hypertension, **88**
tuberculosis, Carrots, sticks and tuberculosis: *editorial,* **95**
Tuberculosis in AIDS: past or new problems?: *editorial,* **567**
Administration of the BCG vaccination using the multipuncture method in schoolchildren: a comparison with the intradermal method, **762**
Directly observed therapy (DOT) for tuberculosis: why, when, how and if?, **S42 (Suppl 2)**
Identification of HIV patients with active pulmonary tuberculosis using urine based polymerase chain reaction assay, **145**
Impact of social interactions in the community on the transmission of tuberculosis in a high incidence area, **136**
Interferon gamma for diagnosing tuberculous pleural effusions, **921**
More carrot or more stick or both?: *editorial,* **96**
Reform of the Public Health Act: *letter,* **750**
Summer tuberculosis: *letter,* **862**
tumour necrosis factor, Extended tumour necrosis factor/HLA-DR haplotypes and asthma in an Australian population sample, **757**

Inter-relationship between tumour necrosis factor-alpha (TNF-α) and TNF soluble receptors in pulmonary sarcoidosis, **524**
tumour necrosis factor soluble receptors, Inter-relationship between tumour necrosis factor-alpha (TNF-α) and TNF soluble receptors in pulmonary sarcoidosis, **524**

urine, Identification of HIV patients with active pulmonary tuberculosis using urine based polymerase chain reaction assay, **145**
urokinase plasminogen activator, The plasmin cascade and matrix metalloproteinases in non-small cell lung cancer: *review,* **169**
USA, Pulmonary and critical care medicine: a peculiarly American hybrid?: *editorial,* **286**

vascular, Enhanced expression of vascular endothelial growth factor in lungs of newborn infants with congenital diaphragmatic hernia and pulmonary hypertension, **427**
vascular endothelial growth factor, Vascular endothelial growth factor (VEGF) in inflammatory and malignant pleural effusions, **707**
vegetables, Dietary factors and pulmonary function: a cross sectional study in middle aged men from three European countries, **1021**
ventilation, Elastic pressure–volume curves: what information do they convey?: *review,* **82**
ventilator associated pneumonia, Clinical diagnosis of ventilator associated pneumonia revisited: comparative validation using immediate post-mortem lung biopsies, **867**
Ventilator associated pneumonia: asking the right question: *editorial,* **863**
visual analogue scale, Repeatability of breathlessness measurements in cancer patients: *letter,* **375**
vitamin D insufficiency, Bone mineral density in adults with cystic fibrosis: *editorial,* **957**
Low bone mineral density in adults with cystic fibrosis, **961**
vitamins, Dietary antioxidants and magnesium in type 1 brittle asthma: a case control study, **115**

Wales, A confidential enquiry into asthma deaths in Wales, **985**
website, *Thorax* **with extra "***e***":** *editorial,* **189**
Wegener's granulomatosis, Wegener's granulomatosis: *review,* **629**
wheeze, Geographical and socioeconomic variation in the prevalence of asthma symptoms in English and Scottish children, **476**
Respiratory symptoms and home environment in children: a national survey, **27**
The burden of asthma: weighting the community risk against individual risk: *editorial,* **471**
women, Rising incidence of SCLC in young women: *letter,* **656**
worldwide prevalence, Worldwide variations in the prevalence of atopic symptoms: what does it all mean?, **S46 (Suppl 2)**

young adults, Asymptomatic bronchial hyperresponsiveness to exercise in childhood and the development of asthma related symptoms in young adulthood: the Odense Schoolchild Study, **587**
